

So your customer has decided on a Pepper Money loan?

Great! Here's a quick cheat sheet on a few things they need to know:

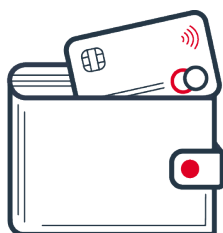

Pepper Money repayments are monthly, but can be changed to weekly or fortnightly after the loan has settled by calling our Customer Service team.

There are additional fees that should be outlined to the customer including:

- establishment fee
- monthly account keeping fee
- your origination fee (if applicable)

Generally, business customers prefer to pay in advance, whilst consumers prefer to pay in arrears. Please make sure you select their preference in CAPSI.
